

**TUTT BRYANT HIRE**

*A Member of the Tutt Bryant Group*

# CAPABILITY STATEMENT

# Our History

## Australia. We've Helped Build It.

The Tutt Bryant Group traces its origins back to 1938, when Mr Leo Edward Tutt established L. Tutt & Co. Pty Ltd selling earthmoving equipment out of a small office located in Sydney's CBD. Armed with an idea and £500, Mr Leo Tutt would join up with Mr George Edward Bryant and embark on a journey that eventually brought about one of Australia's largest and most iconic construction equipment sales, manufacturing and distribution companies at the time - Tutt Bryant Limited.

Over our 75 years in Australia, Tutt Bryant has continually set the benchmark for excellence in its products and services. The name Tutt Bryant invokes strong values and positive qualities that are enduring through generations in the Australian construction industry. Today, as a leading equipment sales and industrial hire service provider, Tutt Bryant continues the rich tradition of providing customers with quality, well-built and well-maintained equipment, backed by a service-oriented network of workshops, expert technicians and support infrastructure.

# About Us

## Who we are.

Tutt Bryant Hire is about providing our clients with a comprehensive range of quality hire equipment and services. Through branches located across NSW, QLD, VIC, SA and WA, Tutt Bryant Hire is capable of offering a wide range of equipment suited to various markets, coupled with exceptional customer and machine maintenance services.

## Our Commitment to Quality.

Customer service and quality equipment is the driving ethos of Tutt Bryant Hire.

To ensure the highest standard of customer service, we are committed to providing quality and well-maintained equipment for hire. Customers can be assured that all our equipment is regularly serviced and maintained by our professional workshop staff. Our experienced sales and hire counter staff are highly proficient with the hire fleet and fully understand the capability of each item of plant and equipment. With such intimate knowledge, our staff can provide customers with expert advice as to the right equipment to achieve the desired result.

To ensure on-the-ground service and support, Tutt Bryant Hire has field representatives who are available to provide advice and assist with your plant hire requirements. Available within our NSW region is the added competency of wet hire (with operator) services for some of our equipment, which complements the majority of our dry hire (without operator) services. Details of availability and the extent of the operational support Tutt Bryant Hire is able to offer can be readily discussed with any of our representatives.

# Our Portfolio

With established branches across NSW, QLD, VIC, SA and WA, Tutt Bryant Hire has a comprehensive range of quality and well-maintained equipment to meet the hiring needs of customers throughout Australia.

We cater to plant and equipment hire requirements in a variety of industries, from earthmoving, civil construction, mining and rail maintenance to industrial, trade and DIY users. Our product range covers construction plant, compaction equipment, access equipment, air and power generation, lighting towers, site accommodation, handling and lifting equipment, welding and cutting equipment, scaffolding and other general hire equipment.

# Industry Associations

# Our Clients

# Our Safety

## Safety is our priority.

Tutt Bryant is committed to the principle that all work related injury, illness, property and environmental damage is preventable and is committed to creating and maintaining an Incident and Injury Free (IIF) workplace. Tutt Bryant will achieve an IIF culture through the disciplined application of our Health, Safety and Environment Management System (HSE MS) which focuses on 'Leadership Accountability' and 'Management System Processes'.

In line with our safety philosophy, we expect to achieve an Incident and Injury Free (IIF) workplace by accomplishing the following:

- Assigning appropriate HSE duties to all workers.
- Providing suitable and sufficient resources to implement and maintain IIF workplaces.
- Setting measurable targets to achieve IIF operations and rewarding superior performance in the management of WHSE.
- Ensuring risks are eliminated as far as reasonably practicable or controlled at the purchasing, design, planning and implementation phases.
- Ensuring that no hazardous operational activities are undertaken unless a risk assessment of the work is completed and the responsible person is satisfied that all foreseeable hazards associated with the work are eliminated as far as reasonably practicable, or controlled using the hierarchy of risk controls.
- Ensuring full compliance with legal requirements.
- Providing workers and visitors with information, instruction, training and supervision relevant to their existing knowledge and skills and identified needs.
- Ensuring that corrective action/s is/are taken for all reported hazards.
- Establishing effective emergency management procedures for any probable emergency that may impact on the health and safety of workers and/or the public, and/or is likely to adversely impact the environment.
- Implementing an effective Injury Management and Rehabilitation program.
- Investigating incidents to identify and correct root causes of incidents to reduce the likelihood of recurrence.
