## JOHN DEERE L-SERIES BACKHOE LOADERS

Why run two machines when one will do? Whether you're loading trucks, placing pipe, digging trenches, or moving materials, a L-Series Backhoe is more than up to the task. Building upon John Deere's highly productive K-Series Backhoes, the L-Series features additional backhoe lift capability and pressure-compensated load-sensing (PCLS) hydraulics (on the 310SL HL and 410L), for superb multifunction performance.

### KEY EQUIPMENT FEATURES

#### True four-wheel drive on command

Standard limited-slip mechanical-frontwheel drive (optional on the 310L EP and 310L) delivers superior traction in any ground condition. Engage momentary mechanical-front-wheel drive "on the fly" with the touch of a button on the new loader control.

#### Powertrain performance

Responsive and productive fivespeed transmission on the 310SL, 310SL HL, 315SL, and 410L provides transport speeds up to 25 mph. Add the AutoShift option and increase versatility in any application.

#### Powerful FT4 engines

Rugged FT4/Stage IV PowerTech™ Plus diesel engines\* meet rigid emission regulations, enabling you to work, wherever there's work — even in nonattainment areas. Our field-proven technology is simple, fluid, efficient, fully integrated and fully supported. It employs cooled exhaust gas recirculation, easy-to-maintain high-uptime exhaust filters (310SL HL and 410L only), and selective catalytic reduction.

### L-SERIES ADDITIONAL FEATURES

MORE DURABLE  
MULTIPURPOSE BUCKET

BIAS AND RADIAL TYRE  
OPTIONS

DIFF-LOCK PROTECTION

MAINTENANCE-FREE  
BATTERIES

SUPERIOR HYDRAULIC  
OIL

INBUILT SECURITY  
SYSTEM

COMPACTION | EARTHMOVING | ACCESS  
GENERAL HIRE | AND MORE

## JOHN DEERE L-SERIES BACKHOE LOADERS

### L-SERIES BACKHOES

**QUICK MACHINE SPECS:**

MODEL LINE UP

Model	KW (HP)
310L EP	52 (70)
310L	69 (93)
310SL	74 (99)
315SL	74 (99)
310SL HL	82 (110)
410L	84 (113)

**310SL HL**  
HEAVY LIFT

WHAT DOES THE HL STAND FOR?

**315SL**

SIDE SHIFT BOOM WITH VERTICAL STABILIZERS FOR OPERATION IN TIGHT SPACES (LIKE BETWEEN BUILDINGS AND ON BUSY CITY STREETS)

### 310L EP

INTERMEDIATE POWERTECH™ E ENGINE

52 KW (70) NET PEAK POWER

NO AFTERTREATMENT COMPONENTS FOR REDUCED MAINTENANCE

PERFECT FOR RENTAL AND LARGE FLEETS

**CONTROL FEATURES:**

**MULTIFUNCTION LEVER**

CONTROLS LIGHTS, WIPERS, AND TURN SIGNALS

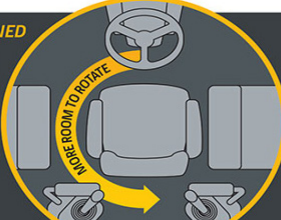

**AUTOSHIFT**

OPTIONAL FOR APPLICATIONS INVOLVING FREQUENT TRANSPORT BETWEEN WORK AREAS\*

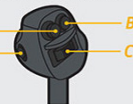

\*NOT AVAILABLE ON 310L

### REDESIGNED PILOT TOWERS

MAKE ROOM TO ROTATE

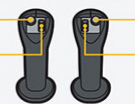

**ENHANCED LOADER-CONTROL GRIP**

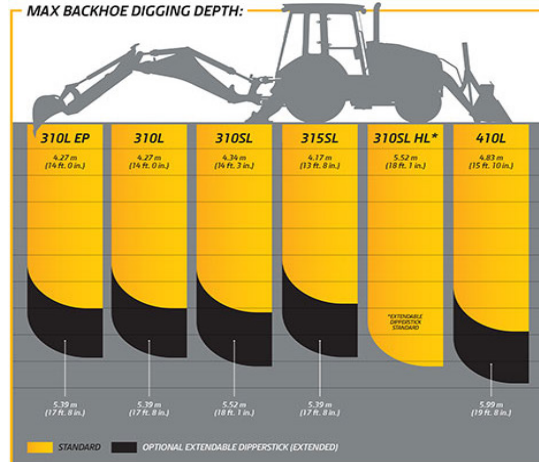

A CLUTCH DISCONNECT  
B TRANSMISSION QUICK-SHIFT  
C AUXILIARY PROPORTIONAL ROLLER  
D MOMENTARY MECHANICAL FOUR-WHEEL DRIVE

**FINGERTIP PILOT CONTROLS**

A HORN  
B AUXILIARY PROPORTIONAL ROLLER  
C EXTENDABLE DIPPERSTICK\*  
D AUXILIARY SELECTIVE FLOW\*\*

\*310SL HL AND 410L ONLY  
\*\*310SL HL AND 410L ONLY
